Students Daily Diary

Student Name: Aryan Dharmam

UID: 23BCB10081

Program: BE CSE CSBS

Semester & Section: III 23CBS 121 B

Name of Departmental Social Internship Coordinator: Yogiraj Bhole

Week / Day : <u>3/4</u>	Date / Day : <u>29/06/2024 Thursday</u>
Time of arrival : <u>—</u>	Time of departure: <u>—</u>
Objective of activity / visit: <u>Identifying challenges & gaps</u>	Outcome of the activity / visit: <u>Identified key headers</u>

Major points of the day:

Whilst talking to some of the elderly residents, a new problem came into light, the challenge of getting the gas back home after refilling at the gas station, coupled with treacherous terrain, creates a significant obstacle. Unlike most places, forger trucks not even labourers are available for most of the times. Thus navigating narrow, winding paths is a challenge. Moreover with age it becomes ever so more difficult for them.

Speaking with the residents, it became clear the current system puts a huge burden on them. Imagine lugging a heavy 20+ kg gas cylinder uphill! This highlights a critical gap in the program's execution for this specific environment.

Innovative solutions are needed to address the unique situation of elderly residents in hilly areas.

Perhaps lighter canisters or a designated support system for at least senior citizens should be considered.

This challenge brings the importance of tailoring programs to specific geographical realities necessary.
