

## Students Daily Diary

Student Name: Aryan Dhasmana

UID: 23BCB10081

Program: BE CSBS

Semester & Section: III CBS 121B

Name of Departmental Social Internship Coordinator: Yogiraj Bhalu

Week / Day : <u>1/2</u>	Date / Day : <u>04/06/2024</u> <u>Tuesday</u>
Time of arrival : <u>—</u>	Time of departure: <u>—</u>
Objective of activity / visit: <u>To Explore living conditions</u>	Outcome of the activity / visit: <u>Identification of key issues</u>

### Major points of the day:

Water Woes and Power struggle

Today, I ventured further into the village and into surrounding areas. The higher altitude offered stunning panoramic views, but it also highlighted the challenges of living on a mountain top.

One of the most pressing issues I encountered was water scarcity. Here, water rationing is a harsh reality. Villagers receive piped water only once every two days, making it a constant struggle to meet their daily needs. The climb back up the mountains with heavy pots of water is particularly grueling for women and children who are often tasked with fetching water.

Adding to their woes is the erratic electricity supply

The scorching summer heat makes even a short power outage unbearable. With limited access to fans and refrigerators, daily life becomes a battle against the relentless sun. The villagers dread that lack of rainfall this year has exacerbated the situation, leaving them worried.

These challenges paint a clear picture of how inadequate infrastructure directly impacts livelihoods.
