## Students Daily Diary

Student Name: Aryan Dhasmana

UID: 23BCB100B1

Program: BE CSE CSBS

Semester & Section: III CBS 121 B

Name of Departmental Social Internship Coordinator: Yogitaj Bhole

Week / Day : <u>1 / 3</u>	Date / Day : <u>05/06/2024</u> <u>Wednesday</u>
Time of arrival : <u>—</u>	Time of departure: <u>—</u>
Objective of activity / visit: <u>Investigate basic infrastructure</u>	Outcome of the activity / visit: <u>Identification of lacking infrastructure</u>

### Major points of the day:

Today focused on the practicalities of construction in this rural setting. Acquiring building materials became a logistical nightmare as the nearest stores lie hours away, draining time and resources. Moreover even basic medical needs turned into risky journeys. This lack of infrastructure creates a vicious cycle. Limited transportation hinders construction, healthcare and education. Bridging this infrastructure gap is crucial. Imagine a future where people could thrive with readily available basic amenities.

Adding to their woes is the erratic electricity supply

The scorching summer heat makes even a short power outage unbearable. With limited access to fans and refrigerators, daily life becomes a battle against the relentless sun. The villagers shared that lack of rainfall this year has exacerbated the situation, leaving them worried.

These challenges paint a clear picture of how inadequate infrastructure directly impacts livelihoods.
